PROFILE

Full Stack Software Engineer with 6+ years of experience building and maintaining web applications with PHP, Laravel, Vue.js, and MySQL, including large-scale estate management systems and healthcare management systems for hospital administration, pharmacy, laboratory, and patient service workflows. Experienced in developing RESTful APIs, database-driven workflows, authentication, and responsive dashboards. Comfortable collaborating with cross-functional teams and taking ownership of features from requirements and database design through development and delivery, with a strong focus on code quality, maintainability, and reliable software.

SKILLS

Backend: PHP, Laravel, Node.js, Strapi, REST APIs, MySQL

Frontend: JavaScript, Vue 3, Nuxt.js, PrimeVue, Tailwind CSS, HTML, CSS

Practice: Git, code review, database design, working with PM, BA, UI/UX, and QA

Languages: Burmese (native), English (intermediate)

EXPERIENCE

Senior Software Engineer · **Yoma Strategic Holdings Ltd (Onenex)** 2022 Sept – 2026 July

- Took features from business analysis and database design through Laravel, Vue 3, and MySQL delivery.
- Built REST APIs for dashboards and mobile apps, and reviewed code with the team.
- Worked with junior developers and client teams to resolve issues, and managed Git branches.

Software Engineer · **rgo47** 2020 June – 2021 Jan

- Integrated REST APIs for an ERP system.
- Worked with PM, BA, UI/UX, developers, and QA.

Junior Software Engineer · **rgo47** 2020 Feb – 2020 May

- Built features for an ERP management system.
- Collaborated with a senior developer.

SELECTED PROJECTS

Ziwa Thukha Healthcare · **Administration portal**

Vue 3, Pinia, PrimeVue, Tailwind CSS, CASL, Vue I18n, Laravel REST API

- Developed a Vue 3 portal for patient registration, visit check-in, appointments, and the live clinic queue, with each doctor limited to their own queue, history, and check-up results.
- Built billing, laboratory registration, pharmacy, and warehouse flows, including stock transfers and order requests.
- Delivered proposal and quotation workflows for corporate clients, from draft and approval through revision and a printable quotation, in English and Myanmar.

Heal by Pun Hlaing · **Healthcare platform**

Laravel, Vue 3, PrimeVue, Tailwind CSS, MySQL, Redis, Laravel Passport

- Built a healthcare platform for 50,000+ patients, covering appointments, medical records, and doctor chat.
- Developed Vue 3 interfaces and REST APIs with Laravel Passport, using Redis queues.

Star City Living App · **Admin portal**

Vue 3, Pinia, PrimeVue, CASL, Vue I18n, Axios

- Developed a Vue 3 admin portal for 80,000+ residents, covering pending, active, inactive, and rejected profiles, with unit assignment, rejection remarks, and bill history.
- Built service-case workflows and the sports-club module for subscriptions, prepaid packages, and facility bookings across courts and time slots.
- Delivered English and Myanmar content for the resident app, including draft and published pages, FAQ, terms, and payment-channel settings, with role-based access.
